Work experience

Dr.Magdy Eltahan Lab.

01/2010 — 03/2012

Clinical Specialist

- Liaising with internal departments about product features and functionalities.
- Accommodating the schedules of healthcare professionals in setting appointments.
- Memorizing product features and presenting their functionalities, using applicable medical terminology.

Al hayah Clinic

02/2018 — 09/2021

Clinical Nutrition Specialist

- Remember complex and accurate information about a range of products
- Feel confident enough to demonstrate medical devices
- Be patient enough to train medical staff and potential customers – for example, Doctors, Nurses, Gastroenterologists, Anaesthetists, Paediatricians, Radiologists and Orthopaedic Consultants
- Give confident presentations and workshops to groups of medical professionals
- Answer detailed questions about their specialist area
- Explain how a product can fit into a particular clinical practice or setting
- Stay up to date with new clinical evaluations of the product and innovations in their specialist field – these then need to be communicated to their customers
- Stick to a schedule – overstretched healthcare professionals won't have time to stay for longer than the agreed meeting time
