Summary

Motivated and detail-oriented intern doctor with hands-on clinical training and a focused interest in dermatological procedures. Experienced in performing laser hair removal treatments using advanced technologies while ensuring patient safety, comfort, and satisfaction. Strong foundation in patient assessment, skin evaluation, and treatment planning. Dedicated to expanding medical expertise and delivering high-quality care in both clinical and aesthetic settings.

Education

BS	Port Said University , Faculty of medicine	Sept 2019 – Oct 2024
	ElKafrawy Language School ,	Sept 2007– June 2019

Experience

Diva , Aesthetic Medical Intern	New Damietta, Damietta
As an Aesthetic Medical Intern, I helped to provide non-invasive cosmetic procedures with a focus on patient care, safety, and clinical precision. My responsibilities included:	Jan 2025 – Present

- Conducting patient consultations and assessing skin types to determine suitability for laser hair removal treatments.
- laser hair removal procedures under medical supervision using FDA-approved devices
- Educating patients on pre- and post-treatment care to ensure optimal results and reduce risks.
- Monitoring and documenting patient progress, outcomes, and any side effects.
- Ensuring compliance with hygiene protocols and safety standards in all procedures.

This experience enhanced my understanding of dermatological care and patient communication while refining my technical skills in medical aesthetics.
